

Characteristics:

It is a lifesaving product designed for offshore operation. It has the advantages of small size, light weight, easy throwing, high life saving ratio and it is suitable for lifesaving requirements in emergent situations.

When found drowning, a spectator can throw the life ring beside the drowning people. When immersed in water, the life ring will inflate into a buoy within five seconds and float above water. The drowning people can be saved by catching the inflated life ring, which keeps the drowning people floating above water. There is also a 30-meter rope which can be connected to the life ring quickly and safely.

Main technical parameters:

- 1) Weight: <1kg;
- 2) Buoyancy: 78.4N x 2;
- 3) Inflation time: ≤5s;
- 4) Buoyancy loss after 24h: ≤5%;
- 5) CO₂ Weight 17g x 2;
- 6) Float duration: ≥24h;
- 7) Ambient temperature for use: -30°C +65°C;
- 8) Validity: 3 years
